Be More

We are a dynamic, global synthetic turf company committed to BE MORE.

Our mission to “Be More” is ingrained in every facet of our business, every employee and throughout our value chain. With a foundation of innovation, integrity and quality, Act Global strives to positively impact society and maximize land use through the use of synthetic turf.

Innovate More.

Advancing turf products and services, with a focus on research, development and a vision to innovate.

Protect More.

Investing in green-friendly technologies, enhancing safety and promoting sustainable practices.

Play More.

Enhancing sports, community spaces and leisure activities through synthetic turf.

Give More.

Supporting charitable and global aid organizations around the world.

What does it mean to BE MORE?

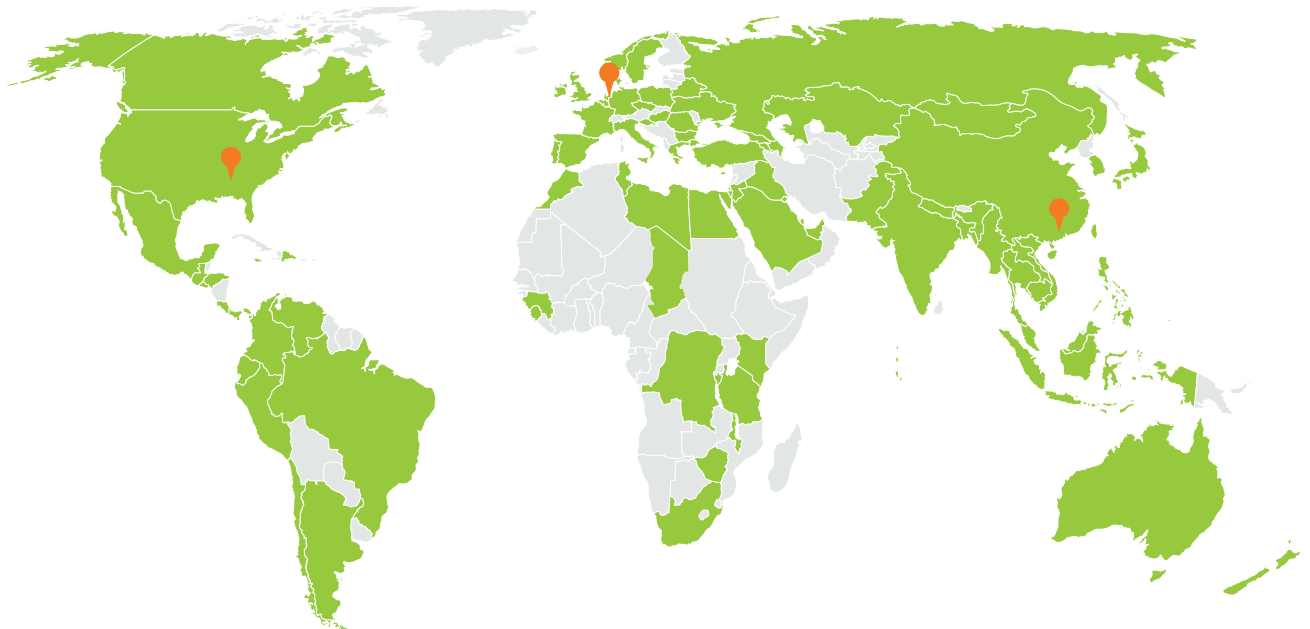

It means commitment first and foremost. A dedicated focus on shaping our company to best serve our market, customers, employees and planet. It is our promise to never stop innovating and seeking excellence. Our team of international partners and staff embodies the values of what we want to accomplish, but more importantly, who we want to be. As innovation has been described as ideas plus action, we have both the talent and the passion to make that happen.

As one of the **WORLD'S LARGEST** producers of synthetic turf, we take quality seriously.

📍 Manufacturing facilities on **3 continents**

■ Installations in over **90 countries**

ISO 9001 Quality

Act Global adheres to strict international standards proven to increase quality. We maintain state of the art operations to ensure each order is of the highest quality, and our team manually inspects every turf roll coming out of production. Strict quality controls, reporting and annual audits keep our operations lean, clean and accountable.

What sets us apart?

Commitment to research, development, testing and staying at the forefront of synthetic turf technology.

TECHNOLOGY LEADERS

- ✓ Full range of synthetic turf for sports, landscape, aviation and landfill capping solutions
- ✓ Long-term investments in new manufacturing centers, in-house R&D laboratory, and testing equipment
- ✓ Patented technologies
- ✓ ISO 9001 Quality Certification
- ✓ Certified Synthetic Turf Council Manufacturer
- ✓ Complete environmental, ASTM, EN/DIN, UV and Lisport Durability testing
- ✓ Worldwide industry and charitable partnerships
- ✓ Cross optimization of global resources, trends and technologies with local support

Innovate

**Our planet has added
MORE THAN 2 BILLION PEOPLE
in the last 25 years alone.**

Over the next 30 years, urbanization will continue to increase. Global travel is a way of life, and we are flying in and out of airports more than ever before. We are producing more waste and filling up landfills. We must be smarter in how we use and protect land, and how we conserve clean drinking water. We must protect the environment and its resources, while maximizing available land for business, leisure, sports and communities.

At Act Global, we are creating solutions which address these issues. We are changing the way the world uses synthetic turf to enhance land use and protect our resources.

Innovate
/'inə,vāt/
to do something in a
new way; to effect change

More

A vision to **INNOVATE.**

PRODUCT RANGE

Our sports turf has been used in community fields to elite professional stadia around the world.

Artificial grass provides natural looking, low-maintenance landscape solution.

Patented aviation turf enhances safety and operations for airports.

Reinforced natural grass system combines the best properties of synthetic and natural turf to offer elite performance and durability.

Patented synthetic turf capping system offers protection for long-term cover of landfills.

Inspired by nature, engineered to exceed. **Verified by Testing**

Natural Grass Benchmarks

We start with the best **NATURAL GRASS BENCHMARKS** and latest **SAFETY DATA**, considering a variety of markets, needs and regulations. By engaging with leading testing institutes, research facilities and industry groups, we satisfy performance requirements and safety needs for all users.

The Building Blocks

We carefully test all raw materials, which form the building blocks for our synthetic turf systems.

- ✓ Grass fibre and system testing that exceeds **TYPICAL ASTM REQUIREMENTS**
- ✓ Melting point, breaking strength, tuft bind strength, elongation, dtex/denier, thickness, width and environmental

Designed to Last

Extensive durability testing confirms superior strength and far exceeds industry standards and that of natural grass.

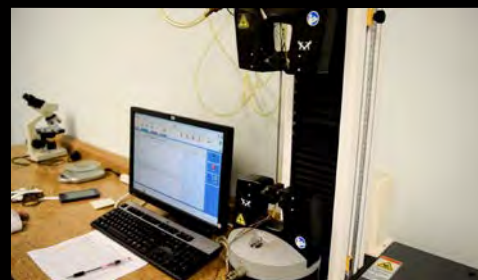

- ✓ UV and artificial weathering
- ✓ Extended Deltec Lisport testing up to 200,000 cycles
- ✓ Instron tester for tensile strength

Engineered Performance

Whether sports, landscaping, aviation or land capping, all synthetic turf systems are extensively tested to perform above and beyond their industry guidelines.

Complete Installation Testing

Accredited testing institutes confirm final construction and installation quality on site. Proper maintenance training is conducted to maximize longevity and performance of installation.

ACT GLOBAL TESTING LAB

Prior to engaging third-party testing laboratories, we utilize our own in-house testing facilities to confirm construction, quality and performance throughout development process. We are committed to excellence and adhering to the highest quality standards.

Protect

Improving **FUTURE GENERATIONS.**

We are committed to keeping our planet and people healthy. We continually invest in maintaining environmentally friendly products and business practices and developing synthetic turf technologies which protect and enhance land use.

Conserving Natural Resources

Billions of gallons of water, as well as pesticides and pollution, are minimized through the use of synthetic turf.

Enhancing Land Use

Synthetic turf promotes greater utilization of land and resources, as you can achieve more with the same surface space.

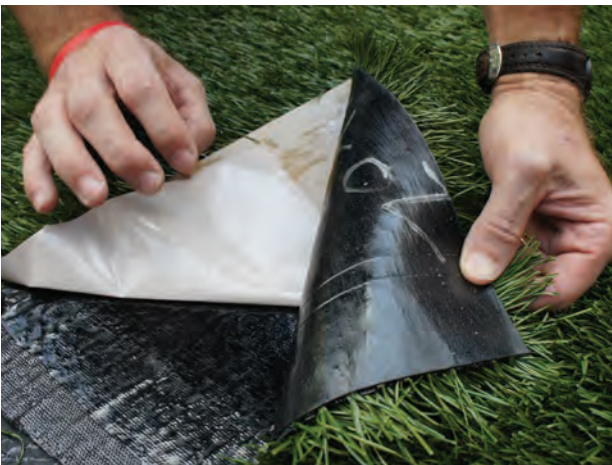

More

Protect /prə'tekt/

to keep safe from harm;
cover or shield from
exposure, injury,
damage, or destruction

Capping Landfills

Patented landfill capping system protects the environment, improves land use and conserves natural resources.

Improving Airport Safety

Enhancing visual recognition, preventing erosion and controlling wildlife are just a few of the operational enhancements offered by our patented aviation turf.

Give More

Let's make the world a **BETTER PLACE.**

Our values drive our business. Creating an honest culture and building a better world are essential to Act Global's success. Through the social impact of sports, global outreach and support of world aid organizations, we can positively impact the communities where we live and work, and the planet we inhabit.

**Give

Connect. Change. Influence. Support. Collaborate. Impact.

The Impact of Sport

Act Global is honored to participate in projects around the world which empower children to be involved in sport. At this non-profit youth group in Colombia, we provided at risk children a safe, high quality playing surface to help keep them off the streets and on the field. Through the game of football, **TIEMPO DE JUEGO** teaches principles of team work, responsibility, tolerance, gender equity, and respect, while giving them a welcoming place to play.

Transform and Uplift

World Vision International is an Evangelical Christian humanitarian aid, development, and advocacy organization. For the past 65 years, it has helped with many world aid programs and is currently helping more than 4 million children in nearly 100 countries. World Vision is an international partnership whose mission is to work with the poor and oppressed to promote human transformation and seek justice.

Fighting Global Poverty

CARE is a leading humanitarian organization fighting global poverty. Our goal with CARE is to provide resources needed for survival in the hands of individuals most adept to make a change in their immediate community. With our donations, the women, mothers, and wives are able to provide value to their families and friends while developing a sense of empowerment.

Play More

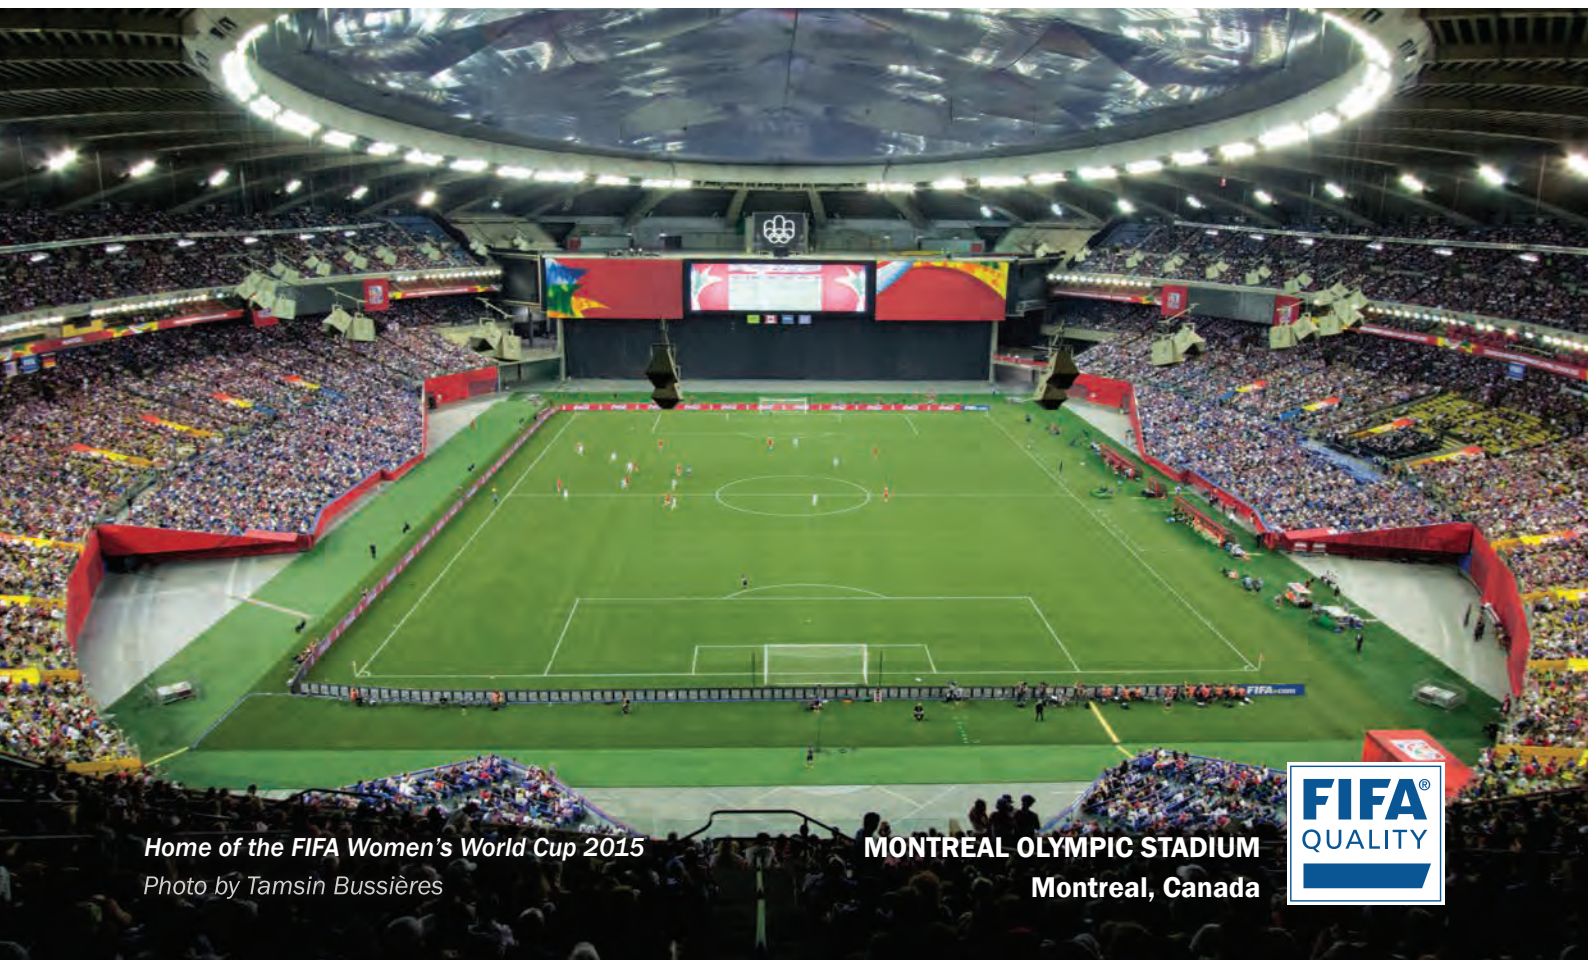

Inspiring **HEALTH AND HAPPINESS.**

Research shows active play is not just joyful and energizing—it's deeply integral with human development and intelligence. Whether it's more time relaxing in your garden, or playing on a world-class stadium pitch, we believe play is essential to human happiness and health. Through our synthetic turf and reinforced natural grass innovations, we increase access to sports and leisure activity for people young and old, from all parts of the world.

The Power of Play

Act Global is honored to be the official synthetic turf sponsor for The Homeless World Cup. With a mission to inspire life change through football, the event brings together hundreds of homeless individuals from around the world for football and fellowship. On the pitch, the playing ground is equal. Players build relationships, trust, dedication and a sense of community—and leave with a renewed confidence to implement change.
